

EXHIBIT C

Original 5 LED Utility Light

Model CL501S — Lightweight, compact, and convenient, the Original 5 LED Utility Light is made to take plenty of rugged treatment. The 5 LED Utility Light is powered by 2 lithium coin cell batteries (included) for use up to 96 hours. Ultra bright white light from 5 LED bulbs with 100,000+ hours of burn time. Completely water resistant, the 5 LED Utility Light attaches under the brim of any hat for 100's of hands free uses.

Black Light Night Fishing Special

Model CL504BL — Four bright white LED lights plus one independent UV/black light. The black light allows the illumination of fluorescent fishing line and lures while fishing at night. With easy to use push button, one push the black light turns on, 2nd push black light turns off while turning on the 4 white lights, 3rd push turns off all 5 lights. Now with the Black Light Night Fishing Special tying knots will be as easy in the dark as it is during the day. Built with the same ruggedness of the Original 5 LED Utility Light.

5 LED Utility Light Replacement Batteries

4 pack of CR2032 coin cell Lithium replacement batteries.
